

_____’s Comprehension - Data Collection

Take periodic data after the student has had an opportunity to interact with a book or activity 3-4 times. You might test once a week or for a few days once a month.

This data should be reviewed with her SLP, resource teacher and classroom teacher once a month. Place a check mark or an X indicating a correct or incorrect response.

Take the first response that she points to. The following is a list of potential questions that you can use with the student. Select those that fit the activity or book.

Concepts & Types Of Questions Asked	Record data here:	#Correct/Total #
1. Who is?		
2. What is ...?		
3. Where is ...?		
4. What colour is ...?
