

## Applied Activity Module 5

### Writing a Report Card

- You may use either one of the report card formats provided in the reference section, or one of your own choosing.
- Write a report card for your student with input from your student's therapists, assistant and any teachers involved.
- Include objectively measured learning outcomes for at least 3 skills or objectives, as well as appropriate anecdotal comments. Include the data from the one skill that you completed an initial base-line measure, and a follow-up measurement.

You will be graded on the following:

\_\_ Completeness and clarity of the Report Card

\_\_ Inclusion of measurement outcomes for at least 3 skills/objectives, including the one for which base-line data was taken in Module 1.
