

# JAN'S IEP OBJECTIVES

## GOAL AREA: COMMUNICATION/SOCIAL

### Goal Statements

Jan will communicate effectively with those around her

Jan will continue to develop her social skills and expand her experiences and relationships

### IEP Objectives

1. Jan will increase her use of non-verbal communication to indicate her basic wants and needs via facial expressions, vocalizations, gestures and body language. (e.g. Personal Dictionary)
2. Jan will initiate and respond to greetings via a voice output device and eye contact, with less verbal prompting.
3. Jan will make choices between two - three objects by looking at her preference.
4. Jan will more consistently indicate that she wants "more" of an activity when it is stopped with her gaze, vocalizations and/or a voice output device.
5. Jan will follow directions (e.g., "look at..."; "hands up"; "open mouth"; push Little Mack"; "shhhhh"; etc.)

## GOAL AREA: FUNCTIONAL PARTICIPATION

### Goal Statement

Jan will increase her active participation in functional skills at home, school and in the community.

5. Jan will participate when appropriate by using a switch with her hands to:
  - engage in leisure activities (e.g., computer)
  - help others
  - have a voice
  - control her environment
6. Jan will increase her use of her hands to touch, explore, reach, grasp, hold, push and/or release objects in functional activities.
7. Jan will increase her physical strength and endurance by...
  - participating in exercise routines
  - standing in her standing frame
  - weight bearing through her shoulders (in prone)
  - participating in position changes
  - increasing her tolerance for the length of time she wears her orthotics during the day
8. Jan will use her vision to continue to develop an awareness of her environment by...
  - visually interacting with objects
  - using her eyes to scan for objects and people
  - looking for tangible symbols in her environment
