

Directions for Greeting Data Collection

| |
|--|
| Obtaining a Baseline |
| Plan to greet student in 5 situations during the day |
| Choose two or three people to be part of the greeting team. Make sure they are people who will be available for probes later on. |
| Greet student by saying "Hi/Bye _____" and waving. |
| Record the time it took the student to respond. |
| If student doesn't respond in 1 minute, call the response time 60 seconds and carry on |
| Carry this procedure out over 3 successive days |
| A month later, do a probe by replicating this procedure. |
| Do a probe monthly thereafter |
